#### 2.3. Going concern

The financial statements of the Company were prepared on the assumption that the Company will continue as a going concern in the foreseeable future. As at the date of preparation of the financial statements, the Management Board of the Company is not aware of any facts or circumstances that would indicate a threat to the Company's continued activities after the reporting date, due to an intended or compulsory withdrawal from or a significant limitation in its activities. COVID-19 pandemic has not had any impact on the going concern assumption of the Company.

As at 30 September 2020 the excess of the current liabilities over the current assets amounted to PLN 343 749 thousand. Taking into consideration good financial position of the Budimex Group related to liquidity, of which the excess of current assets over current liabilities as at 30 September 2020 amounted to PLN 595 147 thousand, the Company's Management Board does not state as at the date of signing the financial statements any threat to Company's ability to continue as a going concern.

## 3. <u>Net sales of finished goods and services, selling expenses, administrative expenses and profitability</u>

Sale of construction-assembly services in Poland is characterized by seasonality mainly connected with atmosphere conditions and the highest revenues are usually achieved in the second and third quarter, while the lowest – in the first quarter.

| - of which: plant and machinery   | 37 705               | 9 471             |  |

As at 30 September 2020 contractual obligations made by the Company for the purchase of property, plant and equipment amounted to PLN 190 thousand. Contractual obligations made by the Company for the purchase of property, plant and equipment as at 31 December 2019 amounted to PLN 212 thousand.

In the 9-month period of 2020 Budimex SA recorded an increase in the level of cash and cash equivalents, which results, inter alia, from high operating flows realized in the initial phase of newly signed infrastructure contracts. In addition, as at 30 September 2020, there was a cyclical increase in the balance of the valuation of construction contracts on the asset side compared to the end of 2019, related to a higher scale of work performed and not invoiced. On the other hand, the increase in the balance of long-term provisions results from the identified risk of the necessity to perform warranty repairs on the ongoing and completed construction contracts. Apart from that, there were no other significant changes in the items of the statement of financial position.

## 9. <u>Description of significant achievements or failures of Budimex SA in the III quarter of 2020, key events concerning the Company's operations and significant events after 30 September 2020</u>

In the period of three quarters of 2020 the results of Budimex SA have improved in comparison with the corresponding period of the previous year. Profitability improvement resulted mainly from the completion of the difficult contracts signed 2-3 years ago which were carried out in the environment of progressive cost inflation. Stabilization of materials and services prices observed in the last quarters positively affected the average profitability of the project portfolio in infrastructure, railway and, apart from standalone projects, general construction segments. In addition, favorable weather conditions positively affected the efficiency of realization of the projects which also resulted in the relatively high sales revenues in analyzed period. Moreover, profitability of the newly signed contracts in general construction and infrastructure segments is constantly improving.

The order portfolio of Budimex SA is profitable and ensures adequate workload for subsequent quarters. In the three quarters the Company increased the value of the order portfolio in the road infrastructure by signing new contracts in "design and build" formula in the amount of PLN 3.1 billion, which will allow to optimize production capacity in the segment in the upcoming 2-3 years. What is more, on the 7th July 2020 the Company signed a contract for the construction works related to the redevelopment of railway station Warszawa Zachodnia which total

(all amounts are expressed in PLN thousand, unless stated otherwise)

value amounts to PLN 1.76 billion. That is why a further dynamic growth of the railway segment share in sales structure of Budimex SA is expected.

As a result of improved profitability of ongoing contracts and also thanks to the effective working capital management and received advances, cash position of the Company is stable and allows for uninterrupted operation. Noticeable increase of cash is also supported by positive operating inflows, generated in the first stages of new infrastructure contracts. Taking into account a relatively high level of cash the Company consistently offers earlier payments for subcontractors and suppliers, supporting their liquidity in the difficult market situation. On the other hand we also do observe responsible approach of the main contractors (GDDKiA and PKP PLK), who maintain the commissioning processes efficiently and make their payments in accordance with agreed schedule without any delays.

Information on the most important contracts signed by the Company or those where the offer of the Company was rated the highest was disclosed in the form of current reports published on the Company's website.

State of epidemic, which was introduced in Poland on 20 March 2020, had an impact on a few contracts, which are mainly carried-out abroad. According to the estimates of the Company the impact on the operating profit amounts to approximately minus PLN 31 million. Threat related to the spreading of the coronavirus resulted in changes in work organization rules, among others, by the introduction of a temporary possibility of remote work, providing disinfection measures for employees or reorganization of the office space to ensure compliance with the recommendations of the Main Sanitary Inspectorate. Currently, contracts are performed without major disruptions, we do not observe any significant problems which might affect suppliers or subcontractors. Cooperation with clients is effective and adapted to the current reality, and payments for completed works are settled on time.

During three quarters of 2020 Budimex SA transferred more than PLN 2 million in a form of donations and grants to fight against the effects of coronavirus pandemic. The Company donated hospitals, nursing homes and other medical facilities where COVID-19 patients are treated. Part of donations was also granted to public benefit organizations which help the local communities to counteract against spreading of the pandemic.

In the period from 30 September 2020 to the date of preparation of these condensed financial statements there has been a significant increase in coronavirus infections among the employees of Budimex SA. However, these cases are dispersed throughout the country and therefore it does not affect the Company's operations significantly.

In the period from 30 September 2020 to the date of preparation of these condensed financial statements no other significant events took place.

## 10. <u>Proceedings pending as at 30 September 2020 before court, competent arbitration body or</u> any public administration authority

The total value of legal proceedings pending in respect of liabilities and receivables as at 30 September 2020 was PLN 685 948 thousand. Excess of the value of proceedings against Budimex SA over proceedings relating to claims of the Company amounted to PLN 41 410 thousand.

On the basis of the information at hand, the total value of legal proceedings pending in respect of liabilities of Budimex SA as at 30 September 2020 was PLN 363 679 thousand. The proceedings pending in respect of Budimex SA relate to the operating activities of the Company.

The largest claim in dispute was submitted on 24 July 2017 by Muzeum Śląskie in Katowice against Budimex SA and Ferrovial Agroman SA, operating as a consortium, in connection with the performance of the contract called "Construction of new premises of Muzeum Śląskie in Katowice" concluded on 7 June 2011. The claimant requested that either the amount of PLN 122 758 thousand, together with statutory interest calculated as of the date of claim filling, was awarded jointly and severally against the defendants towards undue performance of the contract, or the defendants were ordered to reduce contract transaction price by the amount of PLN 34 675 thousand being the reimbursement of the unfairly, as stated by the claimant, paid contract consideration. Art. 471 of the Civil Code was named as the basis for the principal claim, while the provisions of contractor warranty for defects in the constructed facility – for the alternative claim (*żądanie ewentualne*).

(all amounts are expressed in PLN thousand, unless stated otherwise)

In the opinion of the Management Board of Budimex SA, the claim is unjustified. The irregularities, if any, which the claimant names as the basis for its action do not result from contract performance or undue performance by the consortium. In addition, due contract performance was confirmed by the claimant by the issued Certificate of Acquisition and Certificate of Completion of premises of Muzeum Śląskie in Katowice. In the opinion of the Management Board, the reported provisions cover the risks related to contract performance. Budimex SA filed its reply to said claim on 31 October 2017. It was supplemented by Budimex SA in January 2018. Ferrovial Agroman SA files its request to the claim on 22 October 2018. The first hearing took place on 11 March 2019, during which the court obliged the parties to pay an advance towards the remuneration of the research institute, which will prepare an opinion on the case. As at the date of the report, the date of the next hearing is not known.

Another significant case concerns a request for arbitration submitted by Steinmüller Babcock Environment GmbH ("Steinmüller") on 20 December 2019 to the Secretariat of the International Court of Arbitration at the International Chamber of Commerce in Paris. The application is based on the allegations of breach by Budimex SA of the consortium agreement concluded between Budimex SA and Steinmüller in connection with the joint performance of construction works regarding the public procurement under the name "Construction of a new heat and power plant in Vilnius - Lot 1" for JSC "Vilniaus kogeneracine jegaine" with its seat in Vilnius (Lithuania) and includes a request that the adjudicating team establish intra-consortium liability of Budimex SA towards the claimant for any damage or claims that arose (or may arise) as a result of alleged delayed or improper performance by Budimex SA of its scope of work for which the consortium may be liable. For the purposes of the arbitration proceedings, Steinmüller determined the value of its claims at EUR 25 million, i.e. PLN 105 875 thousand.

In the opinion of the Management Board of Budimex SA, the claims covered by the Request for Arbitration are groundless and, above all, premature. The consortium submitted a number of claims to the contract engineer for an extension of the time for completion of the works, for reasons both beyond the control of the parties to the contract and dependent solely on the contracting authority.

In response, on 28 February 2020 Budimex SA submitted a response to the request for arbitration along with counterclaims against Steinmüller. Budimex SA demands that the adjudication team dismisses Steinmüller's claims entirely as unfounded, and also presented counterclaims against Steinmüller, in particular for a recognition that the delays in the performance of the construction works are due to reasons attributable to Steinmüller. The estimated value of mutual claims of Budimex SA against Steinmüller was determined at EUR 26 537 thousand, i.e. PLN 114 904 thousand.

On 27 May 2020 the parties and the adjudicating panel signed the act of mission. According to the agreed procedure schedule, Steinmüller should file a claim by 18 December 2020, Budimex SA should file a response and counterclaim by 30 April 2021, and the hearing is to be held in the third guarter of 2022.

Another legal proceedings with a material value relate to the claim filed on 5 March 2008 by Miejskie Wodociągi i Kanalizacja w Bydgoszczy Sp. z o.o. requesting that the amount of PLN 25 252 thousand be awarded jointly and severally against the consortium to which the Budimex SA and Budimex Dromex SA belonged. The claim relates to the replacement of contractor costs incurred by the investor when the consortium rescinded the contract. The share of the companies in the consortium was 90%, therefore the value of the claim for which Budimex SA is presently liable is PLN 22 727 thousand. On 12 July 2017, the court of the first instance awarded against Budimex SA only the amount of PLN 22 thousand (towards reimbursement of the costs of expert opinions commissioned by the claimant), and dismissed the claim in its entirety. The appeal against court decision was filed both by the claimant (as regards the entire claim), and the defendant (as regards the part of the verdict regarding the amount of PLN 22 thousand). Currently, the parties await setting the date for the hearing before the court of the second instance.

As at the date of this report, the final outcome of the remaining proceedings is not known. For all legal proceedings which – according to the Company – may finish in an unfavourable way, provisions were recognised in the amount that takes into account the risk estimated by the Company.

The total value of legal proceedings pending in respect of claims of Budimex SA amounted to PLN 322 269 thousand as at 30 September 2020. Apart from the above described case brought by Budimex SA against Steinmüller Babcock Environment GmbH, the remaining proceedings relate mainly to the recovery of overdue receivables from business partners and to additional claims in respect of the construction work performed. As at the date of this report, the final outcome of the proceedings is not known.

Contingent assets arising from guarantees and sureties represent guarantees issued by banks or other entities in favour of Budimex SA serving as security for the Company's claims against business partners in connection with executed construction contracts.

Contingent liabilities arising from guarantees and sureties comprise mainly guarantees issued by banks to business partners of the Company to secure their claims against the Company that may arise on the grounds of executed construction contracts. The banks are entitled to recourse claims against Budimex SA under these guarantees. Guarantees issued to the investors of the Company represent an alternative, to the retentions held, method of securing potential investor claims relating to construction contracts. At the same time, the risk relating to warranty repairs assessed by the Management Board of the Company as probable was appropriately reflected in the warranty repair provision, as described in note 6 to these condensed financial statements.

The promissory notes issued represent security for liabilities settlement towards strategic suppliers of Budimex SA, while bills of exchange received and recognised under contingent assets represent security for receivables payment due to the Company from its customers.
